GENESIS MEDICAL GROUP FEATURED PHYSICIANS:

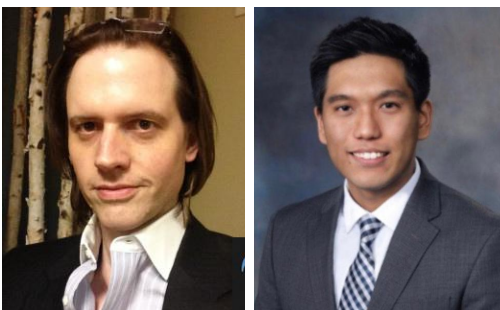

Jonathan Paek, MD
&
James Mackey, MD

Welcome, Dr. Paek!

Andrew A. Mendoza - Newsletter Editor

Dr. Jonathan Paek is a compassionate and enthusiastic physician who completed his interventional pain fellowship at Harvard Medical School's Massachusetts General Hospital. Dr. Paek became interested in the field of chronic pain management while dealing with personal pain issues of his own in his late twenties when he developed long-standing hamstring and gluteal pain that completely prevented him from sitting down. Because of this issue, he has a big heart for patients dealing with chronic pain as he understands just how dark and helpless pain issues can make a person feel. As a result of his own experiences with chronic pain, Dr. Paek decided to study pain management at one of the most prominent hospitals in the world, Massachusetts General Hospital.

He continues to be invested in advancing the field of pain medicine. Dr. Paek has published scientific articles and book chapters in both fields of pain and anesthesiology, and he has presented over 20 lectures and at medical schools and national conferences on topics ranging from CRPS to opioid management.

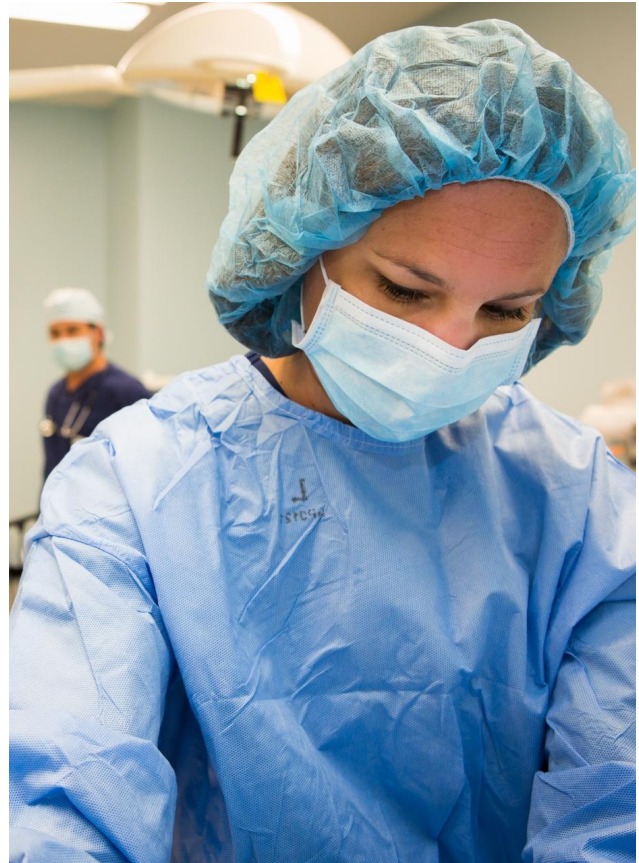

Welcome, Dr. Mackey!

Andrew A. Mendoza - Newsletter Editor

Dr. James Mackey is a native Texan who has been in private practice since 2005. He received his undergraduate degree from the University of Texas at Austin, and attended medical school at the UT Health and Science Center at San Antonio. Following medical school, Dr. Mackey completed his internship and residency in internal medicine at Texas Health Presbyterian Hospital Dallas before finally completing his oncology fellowship at Baylor University Medical Center.

Dr. Mackey has a patient-centered approach to patient care. He enjoys challenging situations and attempting to cure the potentially curable, but is also very experienced in helping patients with quality-of-life concerns. He is also board certified in hospice and palliative medicine, and co-founded a hospice company in the DFW metroplex in 2012.

In addition to direct patient care, Dr. Mackey has additional interests and experience as the co-founder of Premier Patient Healthcare ACO, a medical spa, and even a retail wine business. Most of all, however, Dr. Mackey enjoys times at home with his wife, and they care for numerous pets including cats, a dog, a guinea pig, a hamster, and fish in the backyard pond.

**Genesis Medical Group
extends a warm, heartfelt
welcome to both Dr. James
Mackey and Dr. Jonathan
Paek.**

**WELCOME TO THE
TEAM!!!**
